This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. UNITED STATES PAPER MONEY

Paper money has performed an important part in the history of these United States. Adop as a matter of necessity, and not from choice, by Massachusetts Bay Colony, in 1690, it was gr ually issued by other colonies until in general use by all.

It was the original intention of the colonies to have it equal current coin, but depreciat took place, followed by succeeding issues of paper money, until it became practically worthl

During the Revolution a new kind of paper money was issued by authority of the Contine Congress, for the purpose of carrying on the war with England. This was known as Contine Currency. Most of this, also, became worthless. The Spanish silver dollar became the monet unit, Congress so decreeing in 1786.

The Federal Constitution, adopted in 1787, forbid any state to "coin money, emit bills credit, or make anything but gold and silver a tender in payment of debt."

The Act of April 2, 1792, resulted in the establishment of the Mint and the issuance in 1 of the first coins of the United States. Thereafter no notes were issued until called forth by War of 1812. This issue (1812–15) was not intended to circulate as money and was retired quickly as possible.

More than twenty years elapsed before it became again necessary to issue Treasury no In 1835 the United States was practically out of debt, there being on deposit sufficient funds meet outstanding obligations. Soon after, however, the requirements of the government nec sitated the further issuance of Treasury notes.

Commencing in 1837 and continuing to 1843, Congress authorized each year an issue of Treas notes. Most of these notes were quickly redeemed, and, in consequence, the First Comptro on March 31, 1847, directed the Register to close the several accounts of above issues and c solidate and transfer the balances outstanding, aggregating $328,083.14, to a new account, to known as "Old Debt." This designation has been continued to the present time. The amou outstanding on this account June 30, 1907, being $151,635.26.

The next issues of Treasury notes were in 1846 and 1847, to meet deficits created in con quence of the war with Mexico.

In 1857, there being a great reduction in the revenues from customs, owing to the monet crisis prevailing at the time, another issue of Treasury notes was resorted to.

In 1860 Congress authorized a loan of $21,000,000, but the government failed to realize t whole amount, owing to the political troubles preceding the War of the Rebellion. To sup the deficiency Treasury notes were issued. Still another issue of Treasury notes was auth ized in 1861, a few weeks before the commencement of hostilities between the North and Sou

All the Treasury notes which have been mentioned here were *time* or promissory notes and b varying rates of interest. None were used, or intended to be used, as circulating notes or mon

In 1861 Congress first authorized the issue of notes intended to circulate as money. Th were known as Demand Notes, because payable on demand when presented at the Treasu (then in New York) or at certain designated sub-treasuries. When first issued they were n legal tender, but were subsequently made so, and also redeemable in coin.

Later issues of legal tender notes, which are also known as United States Notes, were n made payable "on demand."

Other issues of paper money are Gold Certificates, Silver Certificates, Treasury or Coin Not National Bank-notes and Fractional Currency. None of these bear interest, but one, two ar three-year notes were issued in the early sixties and bore interest ranging from 4% to $7\frac{3}{10}$%.

CONCERNING THE MANUFACTURE OF PAPER MONEY

The early issues of paper money, from 1861 until 1876, were made under contracts with vario Bank Note Companies. After that date the Bureau of Engraving and Printing in Washington con menced the manufacture of all United States paper money and have continued to the present tim

Since paper money became a circulating medium there have been many changes in design, character of paper and varieties of seals used, besides changes in signatures of Register and Treasurer because of their retirement from office.

A number of notes were so successfully counterfeited the Government deemed it wise to discontinue their issue. Happily this trouble has been reduced to a minimum owing to the vigilance of the Secret Service men, and now very few counterfeit notes are in circulation.

The first issues of United States paper money were printed on plain bank note paper of varying quality and thickness. After a few years silk fibre paper was adopted and its use has been continued since. At one time, as an additional safeguard against counterfeiting, some of the bank-note paper was tinted.

The Crane Mills at Dalton, Massachusetts, have for many years made the paper for all bank-notes issued by the United States Government.

As the Treasury regulations prescribe the general character of bank-note designs, not much latitude is left to the designer except in the minor details. In these details there have been constant changes, each succeeding issue being widely different from any preceding issue. On the early notes a larger part of the obverses were covered with engraved work than in later issues, while some of the reverses were entirely covered. Of late years the tendency has been to use less lathe work, but of a higher quality and more complicated design, trusting largely to the security offered by the silk fibre paper.

Owing to the extreme care exercised in the manufacture of bank-notes, and their frequent and rigid inspection before they are placed in circulation, errors and misprints are seldom found. Such as have found their way into the hands of the public have been mostly national bank-notes whose reverse was of a different denomination from the obverse. This was caused by reversing the paper when the second printing took place, the plate from which the sheet was printed bearing more than one denomination of value.

The current issue of Silver Certificates, series 1899, one dollar, two dollars and five dollars and Legal Tender, series of 1901, ten dollars, have been issued with *inverted* backs.

LEGAL TENDER VALUE OF COINS AND PAPER MONEY

But few persons have a definite knowledge as to the legal tender status of United States coins and paper money. Perhaps the best information on this subject has been given in a recent publication by the Government, as follows:

"There are ten different kinds of money in circulation in the United States, namely, gold coins, standard silver dollars, subsidiary silver, gold certificates, silver certificates, Treasury notes issued under the act of July 14, 1890, United States notes (also called greenbacks and lega tenders), national-bank notes, and nickel and bronze coins. These forms of money are all available as circulation. While they do not all possess the full legal tender quality, each kind has such attributes as to give it currency. The status of each kind is as follows:

"*Gold coin* is legal tender at its nominal or face value for all debts, public and private, when not below the standard weight and limit of tolerance prescribed by law; and when below such standard and limit of tolerance it is legal tender in proportion to its weight.

"*Standard silver dollars* are legal tender at their nominal or face value in payment of all debts, public and private, without regard to the amount, except where otherwise expressly stipulated in the contract.

"*Subsidiary silver* is legal tender for amounts not exceeding $10 in any one payment.

"*Treasury notes of the act of July* 14, 1890, are legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract.

"*United States notes* are legal tender for all debts, public and private, except duties on imports and interest on the public debt.

"*Gold certificates, silver certificates and national-bank notes* are *not* legal tender, but both classes of certificates are receivable for all public dues, while national-bank notes are receivable for all public dues except duties on imports, and may be paid out by the Government for all salaries and other debts and demands owing by the United States to individuals, corporations and associations within the United States, except interest on the public debt and in redemption of the national currency. All national banks are required by law to receive the notes of other national banks at par.

"*The minor coins* of nickel and copper are legal tender to the extent of 25 cents."

ISSUES OF PAPER MONEY

The various series of paper money issued by the United States follow and are described i detail. A number has been given to each type note which refers to the design, while variation of signature and seal and reissues are designated by numbers and letters.

DEMAND NOTES

Act of Congress, July 17, 1861, *and supplemental Act of Aug.* 5, 1861. *Notes dated Aug.* 10, 1861

Denominations issued, $5.00, $10.00 and $20.00.

The whole amount authorized under above acts was issued prior to April 1, 1862.

The notes were payable "on demand" by the Assistant Treasurer at New York, and a the Sub-Treasuries in Philadelphia, Boston, Cincinnati, and St. Louis, and bore the in scription: "Receivable in payment of all public dues."

The obverses briefly described are as follows:

PAYABLE IN NEW YORK

1	$5.00	Portrait, Alexander Hamilton (right); large 5 (center); Crawford's statue Americ (left)
2	10.00	Portrait, Abraham Lincoln (left); Art (right); American eagle and shield (center)
3	20.00	Vignette, Liberty and Capitol, with large 20 repeated on either side

PAYABLE IN PHILADELPHIA

1a	$5.00	Portrait, Alexander Hamilton
2a	10.00	" Abraham Lincoln
3a	20.00	Vignette, Liberty

PAYABLE IN BOSTON

1b	$5.00	Portrait, Alexander Hamilton
2b	10.00	" Abraham Lincoln
3b	20.00	Vignette, Liberty

PAYABLE IN CINCINNATI

1c	$5.00	Portrait, Alexander Hamilton
2c	10.00	" Abraham Lincoln
3c	20.00	Vignette, Liberty

PAYABLE IN ST. LOUIS

1d	$5.00	Portrait, Alexander Hamilton
2d	10.00	" Abraham Lincoln
3d	20.00	Vignette, Liberty

All of this issue have their values printed in light green on the face.

The backs are a darker green in elaborate designs of repeated value, with the inscrip tion "United States of America."

These notes being the first ever issued by the United States with backs in green, were called "*Greenbacks*," a name which has since been applied generally to all our paper money except fractional currency.

They were engraved by the American Bank Note Company of New York.

They were signed by employees of the Government with their own names "for the Register" and "for the Treasurer."

This issue is the only one which does not bear the seal of the United States Treasury.

Their being receivable for duties somewhat embarrassed the Government, after the suspension of specie payments, in providing for the gold interest upon the public debt. By the terms of the law they were not made payable in gold, but in a circular sent out by the Secretary of the Treasury, before the suspension of specie payments, they were proclaimed payable *in coin*, and the Government felt obligated to so redeem them, in order to sustain its credit. In consequence, these notes were at times quoted at about the same premium as gold.

LEGAL TENDER NOTES

KNOWN ALSO AS UNITED STATES NOTES

FIRST ISSUE

Act of Congress, Feb. 25, 1862. *Notes dated March* 10, 1862.

Denominations issued, $5.00, $10.00, $20.00, $50.00, $100.00, $500.00, and $1,000.00.

The five, ten and twenty-dollar notes are the same design on obverse as previous issue with the following exceptions: The words "on demand" are omitted, as is also the inscription "Receivable in payment of all public dues."

The signatures of L. E. Chittenden, Register, and F. E. Spinner, Treasurer, are regularly printed on the notes, instead of being signed by a clerk "for the Register" or "for the Treasurer," as heretofore.

This issue was the first to bear the seal of the United States Treasury, which was printed in red on the right side, and the reverses were green, in a new design.

The following is a brief description of the obverses:

4	$5.00	Portrait, Alexander Hamilton
5	10.00	" Abraham Lincoln
6	20.00	Vignette, Liberty
7	50.00	Portrait, Alexander Hamilton
8	100.00	Vignette, Spread eagle
9	500.00	Portrait, Albert Gallatin
10	1,000.00	" Robert Morris

All have large numerals on obverse, giving value of note, on either side, except the $100.00 note, on which they are repeated three times. They were all inscribed "Payable at the Treasury of the United States in New York."

The Act of Congress authorizing this issue directed that a portion of the notes should be exchangeable for United States six per cent. twenty-year bonds, and accordingly two different obligations are found upon the reverse: The first were known as "convertible notes" and read as follows:

"This note is a Legal Tender for all debts, public and private, except duties on imports and interest on the public debt, and is exchangeable for United States six per cent. Twenty-Year Bonds, redeemable at the pleasure of the United States after Five years."

The second: "This note is a Legal Tender for all Debts, Public and Private, except Duties on Imports and Interest on the Public Debt, and is receivable in payment of all loans made to the United States."

The following are the denominations issued with the second obligation:

4a	$5.00	Portrait, Alexander Hamilton
5a	10.00	" Abraham Lincoln
6a	20.00	Vignette, Liberty
7a	50.00	Portrait, Alexander Hamilton
8a	100.00	Vignette, Spreadeagle
9a	500.00	Portrait, Albert Gallatin
10a	1,000.00	" Robert Morris

LEGAL TENDER NOTES

SECOND ISSUE

Act of Congress, July 11, 1862. *Notes dated Aug.* 1, 1862.
Denominations issued, $1.00 and $2.00.

These were the first legal tender notes of small denomination.

11	$1.00	Portrait, Salmon P. Chase (left)
12	2.00	" Alexander Hamilton

The reverses are green, and bear the second obligation mentioned in the previous issue.

These were issued in many "series" and each series was numbered independently of an other, no note having been observed bearing a higher number than 100,000. The same will apply also to the preceding and next following issue.

The signatures on these notes are L. E. Chittenden, Register, and F. E. Spinner, Treasurer, and double numbering now first appears.

Both the American Bank Note Company and National Bank Note Company were concerned in the engraving and printing.

LEGAL TENDER NOTES

THIRD ISSUE

Act of Congress, March 3, 1863. *Notes dated March* 10, 1863.
Denominations issued, $5.00, $10.00, $20.00, $50.00, $100.00, $500.00, and $1,000.00.

The designs of these notes are the same as those dated March 10, 1862.

A portion of the issue is numbered on both the lower left side, and upper right side of note. All bear the signatures of L. E. Chittenden, Register, and F. E. Spinner, Treasurer.

4b	$5.00	Portrait, Alexander Hamilton
5b	10.00	" Abraham Lincoln
6b	20.00	Vignette, Liberty
7b	50.00	Portrait, Alexander Hamilton
8b	100.00	Vignette, Spread-eagle
9b	500.00	Portrait, Albert Gallatin
10b	1,000.00	" Robert Morris

The reverses are green and of same design as those issued under Act of February 25, 1862, with the second obligation, previously mentioned. These notes were engraved by the American Bank Note Company.

LEGAL TENDER NOTES

FOURTH ISSUE

Act of Congress, March 3, 1863. *Series of* 1869, 1874, 1875, 1878, 1880 and 1907.
Denominations issued, $1.00, $2.00, $5.00, $10.00, $20.00, $50.00, $100.00, $500.00, $1,000.00, $5,000.00, and $10,000.00.

These notes bear the following portraits:

13	$1.00	Portrait,	George Washington
14	2.00	"	Thomas Jefferson
15	5.00	"	Andrew Jackson
16	10.00	"	Daniel Webster
17	20.00	"	Alexander Hamilton
18	50.00	"	Henry Clay on series of 1869 and
19	50.00	"	Benjamin Franklin on series of 1874, 1875, 1878 and 1880
20	100.00	"	Abraham Lincoln
21	500.00	"	John Quincy Adams on series of 1869, and
22	500.00	"	General J. K. Mansfield on series of 1874, 1875, 1878 and 1880
23	1,000.00	"	De Witt Clinton in center, Columbus at left
24	5,000.00	"	James Madison on series of 1878 only
25	10,000.00	"	Andrew Jackson

The series of 1874 included only $1.00, $2.00, $50.00, and $500.00, and no $1,000.00 bills were issued of 1874 and 1875. Series of 1907 consists of $5.00 only.

The reverses are green, in two classes of designs, that adopted in 1874 continuing through all the re-issues.

They were so numerous and so long in issue that some of the denominations are occasionally seen at the present time.

In 1869 the United States Government began the use of silk fibre paper in its banknotes. They are found as follows:

GOLD CERTIFICATES

FIRST ISSUE

Act of Congress, March 3, 1863. *With written dates.*
Denominations issued, $20.00, $100.00, $500.00, $1,000.00, $5,000.00 *and* $10,000.00.

The price of gold at the time of the passage of the above Act was over 150%. As duties on imports were payable in gold, and many commercial transactions were conducted on a gold basis, it was then bought and sold like merchandise at the ruling market rates. Congress by this Act authorized the deposit of gold coin and bullion with the Treasurer or any Assistant Treasurer of the United States in sums not less than $20.00 and the issue of certificates therefor, in denominations the same as United States notes.

It was not until Nov. 13, 1865, that the first of these certificates was issued. Very few were seen by the general public, most of them being for clearing house purposes, in the large denominations of $1,000.00, $5,000.00 and $10,000.00.

They were signed by S. B. Colby, Register, and F. E. Spinner, Treasurer, and certificates issued at any Sub-Treasury also bore the signature of the Assistant Treasurer in charge. To be typical of gold they were printed in black on yellow paper.

The following is a brief description of these certificates:

PAYABLE AT NEW YORK

36	$20.00	Vignette,	Eagle with flag and shield
37	100.00	"	Eagle over flag and shield, female head

46	10,000.00	" Andrew Jackson

On all of this issue were the large red seal with spikes, and printed signatures of and New, Allison and Gilfillan, and Allison and Wyman.

Some of the larger denominations bore autographic signatures.

The backs were left blank for endorsement.

GOLD CERTIFICATES

THIRD ISSUE

Act of Congress, March 3, 1863. *Serie*
Denominations issued, $500.00 *and* $1,000.00.

47	$500.00	Portrait, Abraham Lincoln
48	1,000.00	" Alexander Hamilton

The $500 certificates bore the signatures of John Allison, Register, and John C Treasurer. On the $1,000.00 certificates blank spaces were left for autograph sig of Register and Treasurer, and both were countersigned by the Assistant Treas New York, where they were made payable.

GOLD CERTIFICATES

FOURTH ISSUE

Act of Congress, July 12, 1882. *Dated Sept.* 1, 1882.
Denominations issued, $20.00, $50.00, $100.00, $500.00, $1,000.00, $5,000.00 and $10,000.00.

These certificates were issued for deposits of gold coin, and are receivable in payment of customs, taxes and all public dues.

They bear the following portraits:

49	$20.00	Portrait,	James A. Garfield
50	50.00	"	Silas Wright
51	100.00	"	Thomas H. Benton

SILVER CERTIFICATES

THIRD ISSUE

Act of Congress, Aug. 4, 1886. *Series of*
Denominations issued, $1.00, $2.00 *and* $5.00.

These certificates were legal tender for all debts, public and private, except otherwise expressly stipulated in the contract. Permission was also given to issue in lieu of silver certificates of larger denominations in the Treasury, or in exchange for upon presentation by the holders, and to that extent those of larger denomin were to be cancelled and destroyed.

The obverse designs were highly artistic and a radical departure from anythi which had been previously issued. All bear the small red seal.

The reverses, printed in green, are very ornamental and interesting.

The notes are described as follows:

76	$1.00	History instructing youth (obverse) Reverse, portraits, Martha and George Washington
77	2.00	Science presenting Steam and Electricity to Commerce and Manufacture Reverse, portraits, Fulton and Morse
78	5.00	Electricity, the dominant force of the world Reverse, portraits, Generals Grant and Sheridan

NATIONAL BANK-NOTES

FIRST CHARTER PERIOD

Issued under Acts of Congress, Feb. 25, 1863, *and June* 3, 1864.
Denominations issued, $1.00, $2.00, $5.00, $10.00, $20.00, $50.00, $100.00 $500.00 *and* $1,000.00.

By the National Banking Act all banks having charters from the National Government were allowed to issue notes by depositing government bonds with the Treasurer of the United States at Washington to an amount limited to 90% of the par value of bonds so deposited. The notes for all banks were of the same design, the only variations being on obverse the name and address of bank and date of charter, and on reverse, the coat of arms of State in which the bank was located.

The American Bank Note Company made the designs for the $1.00, $10.00, $20 $50.00 and $100.00 notes, the National Bank Note Company made the $2.00, $500.00 $1,000.00, and the Continental Bank Note Company the $5.00 notes.

They bore the signatures of the Register of the Treasury and the Treasurer of the Un States, the seal of the United States Treasury and the number of the note.

The reverses were green, and printed in the center, in black, were copies of histor paintings in the Capitol at Washington. On both ends were upright ovals, the right c taining the American eagle and the left the state arms.

The notes are described as follows:

82	$1.00	Two female figures standing before an altar (on the face) Reverse, Landing of the Pilgrims
83	2.00	America seated holding the flag (left); with large numeral two—thus ᘔ (right) Reverse, Sir Walter Raleigh exhibiting Indian corn and tobacco fi America
84	5.00	Columbus in sight of land (left); Indian maiden, etc. (right) Reverse, Landing of Columbus in 1492
85	10.00	Franklin experimenting with electricity (left); female on American e (right) Reverse, De Soto discovering the Mississippi in 1541
86	20.00	Battle of Lexington (left); Columbia holding American flag (right) Reverse, Baptism of Pocahontas
87	50.00	Washington crossing the Delaware (left); Continental soldier knee (right); Justice, Liberty and Peace, above, Reverse, Embarkation of the Pilgrims
88	100.00	Commodore Perry leaving his flag-ship Lawrence (left); Liberty with sym inscribed "The Union" (right) Reverse, Signing the Declaration of Independence
89	500.00	Genius of the American Navy (left); arrival of the Sirius, New York, 1 (right) Reverse, Surrender of General Burgoyne
90	1,000.00	General Winfield Scott entering the City of Mexico (left); Capitol at Wa ington (right) Reverse, Washington resigning his commission

On the reverses of all was the following:

"This note is receivable at par in all parts of the United States in payment of all ta and excises and all other dues to the United States, except duties on imports; and a for all salaries and other debts and demands owing by the United States to individu corporations and associations within the United States, except interest on public deb also "Counterfeiting or altering this note, or passing any counterfeit or alteration of or having in possession any false or counterfeit plate or impression of it, or any paper m in imitation of the paper on which it is printed, is felony, and is punishable by $1,000 f or fifteen years' imprisonment at hard labor or both."

The $1.00 and $2.00 notes were made with three $1.00 and one $2.00 on a plate, w three exceptions. These were plates of four $1.00 and four $2.00 on the First Natio Bank of Philadelphia and a plate consisting of two $1.00 and two $2.00 on the Washing County National Bank, Greenwich, N. Y.

The $5.00 notes were made four on a plate. In the higher values quite a vari of combinations occur, of which the following are the most frequent: Four $10.00; th $10.00, and one $20.00; two $10.00, one $20.00 and one $50.00; three $20.00 and one $50. one $50.00 and one $100.00; two $20.00, one $50.00 and one $100.00; three $50.00 a one $100.00, etc.

These notes were printed and sent to the banks in sheets, each containing four no

Upon the face space was left for the signatures of the president and cashier. In some instances they have been issued with one or both signatures lacking, which, however, did not affect their validity.

Before being issued the notes were usually cut apart with shears at the bank, although in some cases they were sent to the Bank Note Companies to be not only severed by machinery, but also to have printed facsimile signatures of the bank's officers, instead of obliging them to laboriously sign each with pen and ink. The use of rubber stamps made in facsimile for this purpose is quite common to-day.

They are found as follows:

NATIONAL BANK-NOTES

SECOND CHARTER PERIOD

Series of 1882. *Denominations issued,* $5.00, $10.00, $20.00, $50.00 *and* $100.00.

These notes were first issued in the early "eighties" by newly chartered banks and old banks whose charters had been extended for another twenty years.

The obverses bore a new form of seal in brown, the center of the note being occupie as before, by the name and location of the issuing bank.

The reverses were brown, except the central portion in which the historical pictu were omitted and in place the bank's charter number was printed in green in open wo numerals; otherwise they were similar to the first issue.

With the exception of the $5.00 note, on which the portrait of James A. Garfield a peared, the notes of this issue, on the obverse, are in general character the same as thc of the first issue of national bank-notes.

The obverses are described as follows:

91	$5.00	Portrait, James A. Garfield
92	10.00	Franklin experimenting with electricity, etc.
93	20.00	Battle of Lexington, etc.
94	50.00	Washington crossing the Delaware, etc.
95	100.00	Commodore Perry leaving his flagship, Lawrence, etc.

These are found as follows:

NATIONAL BANK-NOTES

SECOND CHARTER PERIOD. SERIES OF 1908

Issued under Act of Congress, May 30, 1908.
Denominations issued, $5.00, $10.00, $20.00, $50.00 *and* $100.00.

The above Act authorizes an increase in circulation of national banks, and permits other securities than United States bonds to be deposited as security.

In appearance these notes are very much the same as those of the 1882 series. The principal changes are in the seal, which is of the blue scalloped variety, and in the inscription which reads "This note is secured by bonds of the United States or other securities."

The reverses are printed in green, the central portion being blank with the exception of a small ornamental device upon each side of which are the dates 1882 ┼ 1908.

They are found as follows:

96	$5.00	Portrait, James A. Garfield
97	10.00	Franklin experimenting with electricity, etc.
98	20.00	Battle of Lexington, etc.
99	50.00	Washington crossing the Delaware, etc.
100	100.00	Commodore Perry leaving his flagship Lawrence, etc.

NATIONAL BANK-NOTES

THIRD CHARTER PERIOD

Series of 1902. *Denominations issued,* $5.00, $10.00, $20.00, $50.00 *and* $100.00.

These notes, like those of the second issue, emanated from newly chartered banks, and from old banks which had extended their charters for another period of twenty years.

The designs are entirely different from any previously issued, being less intricate on both obverse and reverse, allowing more of the paper to be seen, more dependence being placed on it as a preventative to counterfeiting.

They are described as follows:

101	5.00	Portrait, Benjamin Harrison Reverse, Landing of the Pilgrims
102	10.00	Portrait, William McKinley Reverse, Female figure and ships
103	20.00	Portrait, Hugh McCullough Reverse, Female figure and Capitol
104	50.00	Portrait, John Sherman Reverse, Train of cars
105	100.00	Portrait, John Jay Knox Reverse, Eagle on shield, two male figures

In conformity with the National Banking Act, no smaller denominations than f dollars have been furnished to the banks since the resumption of specie payments January 1, 1879. Since that date the yearly redemption of $1.00 and $2.00 notes has gro smaller each year.

The last issue of the denomination of $1,000.00 was made in 1884, and of the $500. in 1885.

The number of $1,000.00 notes outstanding in 1907 was twenty-four and of the $500. notes one hundred and eighty-six.

These are found as follows:

NATIONAL BANK-NOTES

THIRD CHARTER PERIOD. SERIES OF 1908

Issued under Act of Congress, May 30, 1908.

Denominations authorized, $5.00, $10.00, $20.00, $50.00, $100.00, $500.00, $1,000.00 *and* $10,000.00.

Bank notes authorized by above Act of Congress are known as "Emergency Currency

The designs of the first five denominations are the same as those of the 1902 seric with the exception of the seal, which is the scalloped blue, and of the inscription, which as follows: "This note is secured by bonds of the United States or other securities." Tl designs for the three largest denominations have not yet been determined.

The reverses are the same as the 1902 series, but with the addition of the dates 190: 1908 placed in a prominent position.

They are as follows:

106	$5.00	Portrait, Benjamin Harrison
107	10.00	" William McKinley

NATIONAL GOLD BANK-NOTES

ISSUED MAINLY IN CALIFORNIA

Act of Congress, July 12, 1870.
Denominations issued, $5.00, $10.00, $20.00, $50.00 *and* $100.00.

On obverse these bills bore the same general design as the regular National Bank-notes of the first issue. They were printed on yellow paper and read "redeemable in gold coin."

On reverse the center contained a representation of the current United States gold coins, printed in black, but otherwise were the same as the regular issue, except that they were printed in brown instead of green.

These notes were issued by California banks and were used to facilitate their transactions in gold. They were secured by deposits of Government bonds with the United States Treasurer at Washington.

114	$5.00	Columbus in sight of land, etc.
115	10.00	Franklin experimenting with electricity, etc.
116	20.00	Battle of Lexington, etc.
117	50.00	Washington crossing the Delaware, etc.
118	100.00	Commodore Perry leaving his flagship Lawrence, etc.

The gold banks issuing these notes were the First National Gold Banks of San Francisco, Oakland, Santa Barbara, Stockton and Petaluma, Union National Gold Bank of Oakland, National Gold Bank of D. O. Mills & Co. of Sacramento, National Gold Bank and Trust Company of San Francisco, Farmers' National Gold Bank of San Jose, all in California, and the Kidder National Gold Bank of Boston, Mass.

INTEREST-BEARING NOTES

THREE-YEAR NOTES

Act of Congress, July 17, 1861. *Notes dated October* 1, 1861.
Interest at 7 3/10 *per cent., payable semi-annually.*
Denominations issued, $50.00, $100.00, $500.00, $1,000.00 *and* $5,000.00.

The above Act of Congress was the first one passed for the purpose of raising funds to suppress the rebellion. Congress met in extra session on July 4, 1861. The Secretary of the Treasury estimated the expenditures for the fiscal year 1862 at over $318,500,000. President Lincoln asked authority to borrow $400,000,000, but this Act authorized only $250,000,000, of which a little less than $140,000,000 was issued.

There were five denominations, all of which were made payable to order, with space provided on back for the endorsement of payee. The plates and printing were done by the American Bank Note Company, three notes being made on a plate.

The following is the description:

119	$50.00	Large American eagle (center)
120	100.00	Portrait, General Scott
121	500.00	" George Washington, Justice seated (left); Ceres (right)

Signatures, L. E. Chittenden, Register, and F. E. Spinner, Treasurer. The redemption value of the ten-dollar note was $11.94; of the twenty, $23.88; fifty, $59.70; one hundred dollars, $119.40; five hundred dollars, $597.03, and one thousand dollars, $1,194.06.

REFUNDING NOTES

Act of Congress, Feb. 26, 1879. *Notes dated April* 1, 1879.
Denomination issued, $10.00.

By the terms of above Act the Secretary of the Treasury was authorized to issue, in exchange for lawful money of the United States, certificates of deposit of the denomination of ten dollars, bearing interest at 4 per cent. per annum, and convertible at any time into four per cent. bonds, the money so received to be applied only to the payments of bonds bearing interest at a rate of not less than 5 per cent.

There were two forms; the first bore on the obverse the name of the person to whom the note was issued and required the endorsement of the owner in presence of a witness on the reverse; the second was a general certification that ten dollars had been deposited and required no endorsement; both bore red seals and the words "*United States refunding certificate, ten dollars.*'

The reverses were printed in black, the second form bore the word TEN in lar letters and the following inscription:

"Interest on this note will accrue as follows: For each 9 days or $\frac{1}{10}$ of a quarter, o cent; for each quarter year, ten cents; for each entire year, forty cents."

The object of the Government in making these notes of a small denomination was encourage the poorer people to invest small sums of money in United States securiti They were convertible, with accrued interest, into 4 per cent. bonds when presented the office of the Treasurer of the United States in sums of $50.00 or multiples there but as a matter of fact they were but partially successful in accomplishing this objec and fell mostly into the hands of the national banks.

CURRENCY CERTIFICATES OF DEPOSIT

Act of Congress, June 8, 1872.
Denominations issued, $5,000.00 *and* $10,000.00.

By this Act the Secretary of the Treasury was authorized to receive United Stat notes on deposit, without interest, from national banking associations, in sums not le than ten thousand dollars, and to issue certificates therefor in denominations of not le than five thousand dollars, which were payable on demand in United States notes at t place where the deposits were made.

The United States notes so deposited in the Treasury were not to be counted as part the legal reserve; but the certificates issued therefor could be held and counted by nation banks as part of their legal reserve and could be accepted in settlement of clearing hou balances at the places where the deposits were made.

This act was known as Section 5193 of the Revised Statutes and was repealed Marc 14, 1900.

143	$5,000.00	Certificates bore the portrait of E. D. Baker
144	10,000.00	" " " " " Stephen A. Douglas

These certificates were made payable to blank order ..... and were signe by the Register and Treasurer, and the Assistant Treasurer at place of issue. They bor the large green seal with spikes.

FRACTIONAL CURRENCY—ITS ORIGIN

The origin of Fractional Currency is somewhat peculiar and not generally known. General F. E. Spinner, who was for a long time the Treasurer of the United States, was undoubtedly the inventor of the first issue of fractional currency known as "Postal Currency."

The conditions which led up to the issue of this kind of paper money by the United States are described by Mr. Thomas Cunningham, as follows:

"Upon the breaking out of the war of the Rebellion, all of the gold, silver and copper money in circulation in the United States disappeared as if by magic, to the extent of many millions in comparatively a few days.

"The cause of this disappearance was due to the desire of the timid to save something of actual value from the threatened wreck of the Union, and on the part of the avaricious to hoard up that which was sure to have a large premium in the future.

"The notes of the State Banks then in circulation prevented any serious inconvenience, as regarded amounts from $1.00 upward; but as the silver and copper coins struck by the Government were the only fractional currency in use the inconvenience caused by its sudden disappearance can hardly be imagined at the present time. An illustration of the condition of affairs may be cited in the case of a house in New York which had so many copper cents stored in one of its rooms that the floor collapsed.

"A relief from this condition was needed promptly, and the first came from individual enterprise. Merchants issued promissory notes on small sizes of paper for amounts varying from 1 cent up and redeemable in goods at their place of business.

"Metal tokens in brass, copper and various alloys were also issued by merchants and manufacturers, in the form of advertisements, or bearing patriotic and other mottoes, and these readily passed for cents.

"Street car tickets, milk tickets, and anything having an apparent value, was pressed into service for making change.

"The Postage Stamp, very naturally, quickly claimed recognition as a circulating medium, but the adhesive back was a serious impediment. The New York Central Railroad utilized postage stamps by enclosing various amounts in small envelopes, which were issued as change. Stamps were also mounted in small brass circles, with mica over the face and advertisements stamped on the back.

"To General F. E. Spinner, then Treasurer of the United States, is due the credit of first pasting upon slips of paper, in definite amounts, the United States Postage Stamps in the semblance of money.

"The attention of the Post Office Department having been called to this arrangement of stamps, they readily agreed to redeem them with new stamps when worn or mutilated.

"The convenience and definite value of the pasted stamps, as arranged by General Spinner, were so readily apparent that the matter was at once taken up by Congress, and the regular issue of postal currency was authorized. This 'Postal Currency' had the semblance of postage stamps printed on it, on the same plan as General Spinner's original arrangement. At the time of authorizing the Postal Currency Congress also probihited the issuing of fractional currency and tokens by individuals. The Postal Currency was soon succeeded by the 'Fractional Currency,' which remained in use until the issue of silver again became a possibility.

"No similar event has occurred in the history of paper money to that which was marked by the beginning and end of Fractional Currency, and, though of comparatively recent date, but little of it remains in existence."

A detailed description of the various issues follow:

FRACTIONAL CURRENCY

FIRST ISSUE

Act of Congress, July 17, 1862. *Issued from Aug.* 21, 1862, *to May* 27, 1863.
Denominations issued, 5c., 10c., 25c., 50c.

This issue is known as Postage Currency, the principal designs consisting of reproductions of the 5-cent and 10-cent postage stamps in use at the time.

The 5 and 10-cent notes bear the representation of a single stamp. The 25-cent note bears five 5 cent, and the 50-cent note five 10-cent stamps; the stamps on both notes are placed side by side, overlapping each other.

The 5 and 10-cent notes have large numerals on each side of the stamp, but on the 25 and 50-cent notes the numerals are in the upper corners.

The following inscription is upon all the notes: "*Postage Currency* furnished only by the Assistant Treasurers and designated Depositaries of the U. S. Receivable for Postage Stamps at any Post Office."

On the reverse of all the denominations is a scalloped oval, in the center of which is a large numeral indicating the value. Within this oval is, also, the following inscription "Exchangeable for United States Notes by any Assistant Treasurer or designated U. S Depositary in sums not less than Five Dollars. Receivable in payment of all dues to the U. States less than Five Dollars. Act approved July 17, 1862."

The obverses were engraved and printed by the National Bank Note Co. The reverses were engraved by the American Bank Note Co. and part printed by this company and part by the Government. They were issued in sheets of twenty notes with perforations between, but the demand became so heavy that the perforations were soon omitted.

The following is a description of the various notes:

ESSAY FOR THIRD ISSUE

Act of Congress March 3, 1863. *Denomination of* 15 *cents*
Issue forbidden by Act of Congress, April 7, 1866.
Now known as Section 3576 *Revised Statutes.*

The principal design of this note consists of the portraits of General Grant on the right and General Sherman on the left. The backs are separate and were printed in both red and green.

Owing to the fact that both of the above generals were then living, Congress considered it unwise to place their portraits, or those of any living person, upon its currency or other securities, and, therefore, passed the above named act, which forbid the issue.

As a matter of fact, a number of these notes were issued and are to-day held by many collectors.

They are found as follows:

108	15 Cents	Grant and Sherman, green back. Printed signatures Colby and Spinner
109	15 Cents	Grant and Sherman, green back. Autograph signatures Jeffries and Spinner
110	15 Cents	Grant and Sherman, green back. Autograph signatures Allison and Spinner

111	15 Cents	Grant and Sherman, red back. Printed signatures Colby and Spinner
112	15 Cents	Grant and Sherman, red back. Autograph signatures Colby and Spinner
113	15 Cents	Grant and Sherman, red back. Autograph signatures Jeffries and Spinne
114	15 Cents	Grant and Sherman, red back. Autograph signatures Allison and Spinne

FOURTH ISSUE

Acts of Congress March 3, 1863, *and June* 30, 1864.
Issued from July 14, 1869, *to Feb.* 16, 1875
Denominations issued, 10c., 15c., 25c., 50c., 50c., and 50c.

All the notes of this issue have portraits at left with the exception of the 50 cents Lincoln which is at right. The large Treasury seal is found on all except the 50 cent Stanton and 50 cent Dexter. The former has the small round red seal, and the latter a green eight-pointed scalloped seal.

Two sizes of the large seal are found on the 10 cent, 15 cent and 25 cent notes. These notes were printed on several kinds of paper, the commonest variety being silk fibre paper with blue end. They also come on watermarked paper and silk fibre paper with tinted surface.

All bear the facsimile signatures of John Allison, Register, and F. E. Spinner, Treasurer.

The obverses are in black and the reverses in green.

The inscriptions on both obverse and reverse are the same as previous issues.

The 50 cent Dexter note was the only one issued under the second named act.

They are as follows:

FRACTIONAL CURRENCY, ISSUED, REDEEMED AND OUTSTANDING

For many years the Treasury Department kept an accurate account of each denomination and issue of all fractional currency redeemed. As this entailed considerable labor with no adequate return, the practice of keeping so detailed an account was changed about fifteen years ago. Since that time record is kept of denominations only. The following table, compiled from the last Treasury report, giving details of amounts issued, redeemed and outstanding, shows there is still unredeemed over $15,000,000.00 of this interesting paper money. Since the above report was made only about $36,500.00 has been redeemed. Undoubtedly a large portion of fractional currency outstanding has been lost and destroyed. Although there are many collectors of it, and nearly every one has a few specimens, there are no large quantities held by dealers in numismatics. It offers a field for collectors which is both interesting and inexpensive.

COINAGE OF THE UNITED STATES

The first National Mint was established in Philadelphia. It commenced in 1793 and has been in continuous operation since. Three branch mints were created by Act of Congress of March 3, 1835, at New Orleans, La., Dahlonega, Ga., and Charlotte, N. C. Each of these commenced operations in 1838 and continued until the breaking out of war in 1861, when they were closed. The mint at New Orleans was reopened in 1879 and has been in operation since. Those at Dahlonega and Charlotte have been dispensed with.

The next mint to be established was that at San Francisco, Cal., which was created by Act of Congress July 3, 1852. It has been in continuous operation since 1854. The mint at Carson City, Nev., commenced operation in 1870 and continued until 1893. The last mint to be established is at Denver, Col., which commenced coinage in 1906. The Charlotte and Dahlonega mints made only gold coins. The New Orleans, San Francisco, Carson City and Denver both gold and silver, while the Philadelphia mint coins gold, silver, nickel and bronze.

With the exception of Philadelphia, the coinage of each mint bears a distinguishing letter, as follows:

C Charlotte
CC Carson City
D Dahlonega
O New Orleans
S San Francisco
D Denver

Dahlonega and Denver have the same mint letter, but as none of the former bear a later date than 1861, and the latter none earlier than 1906, no difficulty will be experienced in determining the mintage of each.

Following will be found tables showing the coinage of each mint from its organization to Dec. 31, 1907, or until its discontinuance. By referring to same and noting the amount coined for a given year, the comparative rarity of any coin can be very well ascertained.
